

International Sustainable World (Energy , Engineering & Environment) Project Olympiad 2011 Hong Kong Region Trials

Introduction

I-SWEEEP, the International Sustainable World (Energy, Engineering, and Environment) Project Olympiad, is a ground-breaking science fair open to high school students. It is the largest science fair event of its kind world-wide.

I-SWEEEP is organized by the Cosmos Foundation, a non-profit educational organization in Houston with a mission to establish college preparatory K-12 schools focusing on math, science, engineering, and computer technologies in an effort to provide a world-class education to public.

I-SWEEEP 2010 brought together over 1,000 brightest science like-minded students and their supervisors in Houston. Young scientists from 70 countries and 43 U.S. states displayed their 470 science projects about pressing issues of energy, engineering, and environment.
